T's Super Easy Moo Moo

A Go Green Project!

I created this Moo Moo for myself because at home I like to be comfortable. This Moo Moo is great to wear to bed or wear around the house and it is oh-so-comfortable!

You Will Need:

2 T-Shirts – Bigger size than what you normal wear or same size if you prefer.
Go Green! Do you or someone in your house have t-shirts they don't need or want anymore? Thrift Stores are also a great place to find clothing. The same brand is the best but if the bottom hem length is the same they should be ok.

A Sewing Machine or A Needle and Thread

Pins for pinning fabric

A Yard Stick

Step 1:

Step 2:

Set aside the top half of the T-Shirt you cut you don't need it.

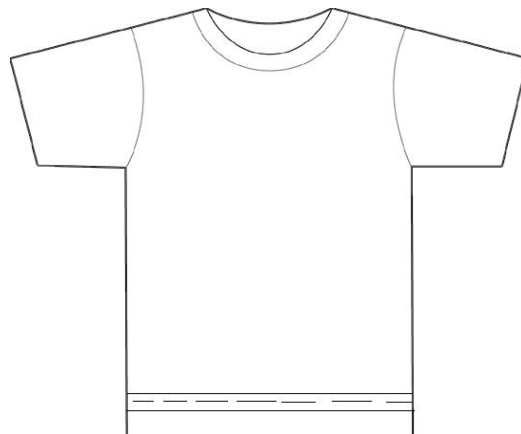

Step 3:

Sew hems together all the way around the T-Shirt. Note for sewing machine users: If you roll up and pin the cut end of the cut T-Shirt so it is out of your way and use the arm feature of your sewing machine sewing the hems together will be easier.

Step 4:

Either eye ball it or use a ruler to fold the cut end of the cut T-Shirt up a half inch and then fold up another half inch to make a hem. Pin and then stitch along the top of the hem.

Your Done! Enjoy your Moo Moo!

Have a Happy Creative Day!

T =-)
